PANASHE NYANGUWO

4826 New Canaan Highfield Harare, Zimbabwe | +263 773791864 | pnyanguwo@proton.me | http://linkedin.com/in/pnyanguwo-cyber/

IT Professional | Cybersecurity | Vulnerability Management | Penetration Testing | Offensive Security

PROFESSIONAL SUMMARY

IT Security Professional with 3+ years' experience in real-time network monitoring, Tier 1 incident detection and SOC operations for utilities and private sector clients. Skilled in SIEM platforms, IDS/IPS alert triage, log analysis, and escalating cybersecurity incidents per SLA and ICT policy. Proficient in threat intelligence correlation, IOC analysis and documenting incidents for compliance. Strong communicator able to work under pressure in 24/7 monitoring environments.

CORE SKILLS

- Cybersecurity: Offensive Security Professional, Vulnerability Assessment, Penetration Testing, Risk Analysis, Security Audits, Patch Management, Remediation, Red Team Operations.
- Tools: Nessus, Qualys, Metasploit, Nmap, Wireshark, SIEM platforms, EDR solutions, Python, Scikit-learn.
- Networking: Network Security, LAN/WAN, Firewall Management, IDS/IPS, Network Monitoring.
- Systems: Linux Administration, Windows Server, Active Directory, System Hardening.
- Compliance: NIST, ISO 27001, COBIT, OWASP Top 10, Secure Coding Practices.
- IT Support: Hardware/Software Troubleshooting, Helpdesk Operations, User Support.

ADDITIONAL SKILLS

- Digital Content: Graphic design with Photoshop, Canva, Lightroom, GIMP for reports and presentations.
- Live Production: Live screen casting, event streaming, OBS setup for webinars and meetings, NDI etc.
- Social Media Management: Content scheduling, basic analytics, brand consistency

PROFESSIONAL EXPERIENCE

Co-founder and AI/Cybersecurity Engineer | Hurudza AI | Mar 2025 – Present

- Managed IT projects from setup to deployment, coordinating technical and non-technical teams.
- Leveraged Python and AI tools to automate log analysis and generate technical documentation, reducing manual reporting time by 40%.
- Designed and implemented IT protocols that improved system reliability and data integrity.
- Used RAG method for training offline Secured AI systems.
- WhatsApp Integration with Various systems e.g. websites and databases.

Cybersecurity and IT Consultant [Part-time] | Infinity Smart Electricity Meters | 2019 – Present

- Conducted regular system checks and resolved hardware/software issues for 500+ users.

- Monitored network performance and resolved connectivity issues, reducing downtime.
- Provided technical training and support for staff on new systems and security practices.

IT Intern | ZESA Holdings | Jan 2023 – Dec 2023

- Maintained critical network infrastructure and performed security audits, identifying vulnerabilities and coordinating patch management schedules to ensure system resilience.
- Assisted with routine maintenance, system updates, and user account management.
- Documented IT processes and created troubleshooting guides for the support team.

EDUCATION

- Bachelor of Science in Computer Information Systems | Midlands State University | 2024
  Specialization: IT Systems, Computer Networks, Software, Website Development and Cyber Defense
- Advanced Level | Chindunduma High School | 2016
- Ordinary Level | Marange High School | 2012

CERTIFICATIONS

- Google Cybersecurity Certificate – Google, 2024.
- Offensive Security Professional [OSP] – ZimCyber, Ministry of ICT and Cyberus, 2025 (Pending Certification).
- National Foundation Certification in Computer Operations and Packages ,2012.
- HP LIFE: IT for Business, AI for Business, Data Science and Analytics, 2025.

Career development Courses.

- EC-Council CodeRed: Cybersecurity for Businesses, Cloud Computing, 2025.
- A Practical Introduction to Cloud Computing | EC-Council CodeRed (Dec 2025).

MASTERCARD CYBERSECURITY VIRTUAL EXPERIENCE PROGRAM ON FORAGE - DECEMBER 2025.

- Completed a job simulation where I served as an analyst on Mastercard's Security Awareness Team.
- Helped identify and report security threats such as phishing.
- Analyzed and identified which areas of the business needed more robust security training and implemented training courses and procedures for those teams.
- Correlated threat intelligence feeds and indicators of compromise [IOCs] against real-time alerts to identify and report security threats during job simulation.

ADDITIONAL INFORMATION

- Driver's License: Class 2, 2017
- Awards: HP LIFE Ambassador, Microsoft Learn Student Ambassador
- HP Operational Aspects
- HP Digital Skills Builder
- Languages: English, Shona [Fluent]
